Program:

13.30-15.30:

- 1 Targeted Malware Attack – The Real CIO Challenge
Presented by: security-1st.net Information Security Researcher and Consultant - Gildas Deograt, CISSP
- 2 Complete Security and Control – Are you REALLY protected?
Presented by: Sophos Regional Manager ASEAN - Clarence Phua

15.30-16.00:

- 3 Coffee Break & Networking

16.00-17.30:

- 4 Good IT Governance Through Real Time Security Monitoring
Dealing with Malicious "Insider"?
Presented by: President of Information System Audit and Control Association (ISACA) Indonesia Chapter – Surdiyanto Suryodarmodjo
- 5 Detecting and Mitigating Attacks Using Your Network Infrastructure
Presented by: Senior Systems Engineer Cisco Systems Indonesia - Prio Utomo, CCIE

Not sure about your participation? Please take 5 minutes to do the self assessment of Information Security Technical Audit below:

1. Are you and your employees reading email or accessing Internet using user account with local PC/Laptop administrator privilege?
2. Do your system administrators manage the systems, read their email and access Internet using their administrator privilege account?
3. Is your wireless access point directly connected to your internal network and using no encryption or WEP protection?

If there is one or more "Yes" answer(s) for the above questions, it means your system can be owned by the enemy easily. We would highly recommend you to attend the CIO Forum.
