Not sure about your participation?  
Please take 5 minutes to do the self assessment  
of Information Security Management Audit below:

1. Have you done information security classification process?
2. Have your organization performed Information Security Awareness Program for all employees and contractors regularly?
3. Is there any integrated information security related procedure between IT team, Physical Security team and Human Resources team?

*If there is one or more "No" answer(s) for the above questions, it means you have no proper information security strategy. We would highly recommend you to attend the Executive Forum.*
